DEAR AFYAPLUS WASH GALA PARTNERS AND ALL STAKEHOLDERS

FROM OUR EXECUTIVE
DIRECTOR
SUZAN YUMBE

On behalf of the Afyaplus organization, I would like to take this opportunity to thank all Afyaplus WASH Gala partners and stakeholders for your generous support towards water sanitation and hygiene (WASH) services in schools through your cash and in-kind contributions.

We are proud to announce that the funds raised during Afyaplus 2nd WASH Gala has helped the organization to provide access to clean and safe water through construction of hand washing station in 6 schools with the aim of supporting 5472 students of Iringa region.

Without your generous contribution these achievement would not have been successfully. We thank you all for continuing to be part of this important fundraising. We couldn't have done this without any of you.

With thanks

Suzan Yumbe

Executive Director

ABOUT AFYAPLUS 2ND WASH GALA

On every International World Water Day, Afyaplus Organization always celebrates by preparing a water sanitation and hygiene event known as Afyaplus WASH Gala. For this year 2022, the theme for the 2nd WASH gala was a multi-sector collaboration to support water services in Iringa.

The major aim of the event was to collaborate with different stakeholders to come up with a sustainable solution for improving WASH services in Iringa and to raise enough funds for initiating 5 reusable sanitary pad laboratories and construct hand washing stands in 10 schools within the Iringa region whereby eight children can access and wash their hands at once. By so doing it will help to reduce time spent fetching water thus increasing health standards by ensuring a favorable environment that increases children's school attendance and performance. The event was conducted at Royal Palm Hall and was attended by the Iringa District Commissioner who was the guest of honor.

PANELIST DISCUSSION

Panelist discussion was conducted by the panelist team in collaboration with all the guests. The major aim of this discussion was to share experience and ideas towards sustainable solutions for improving WASH services in Iringa schools, reducing time spent fetching water increasing health standards, and ensuring a favorable environment that increases children's school attendance and performance.

Fig 8: Panelist team sharing ideas on how to improve water services during Afyaplus 2nd WASH gala

Special thanks to our panelist team for a nice presentation on how we can come up with sustainable solutions for improving water sanitation and hygiene services in Iringa region schools, to increase school attendance, and performance and reducing time spent fetching water. The Panelist team included Sophia Mbeyela, Miriam Lazier, Khadija Haroun, Herman Mjengi, Suzan Yumbe, and Gaudence Haule. Through this discussion, it was concluded that the government, private sectors, and individuals have to take a considerable part in improving WASH services.
